# knowing numbers

A community approach to understanding the early childhood education workforce

# **City of Windsor**

### **The City of Windsor**

The regional data presented here are part of the larger provincial early childhood education workforce study **Knowing Our Numbers** (KON). The City of Windsor is one of 43 regional children's service districts that participated in the study. In total, they represent over 91% of all regions in Ontario. Details on the project, methodology, and province-wide results can be found <u>here</u>. In the <u>Executive Report</u>, the City of Windsor is part of the 'West' data region. Census data provided on the following page allow readers to put the results into the context of regional demographics.

### Sample Characteristics

A total of 263 individuals working in early years services in the City of Windsor responded to the survey (referred to as the 'workforce survey'). Of these, 74.1% are RECEs and 25.9% are non-RECEs (together referred to as the 'workforce'). Most respondents are from non-profit programs (70.7%). Additionally, 32 directors responded to the survey. As the number of respondents who are licensed home child care providers in Windsor is low (n=9), data are not presented here; these data are included in the **Executive Report**.

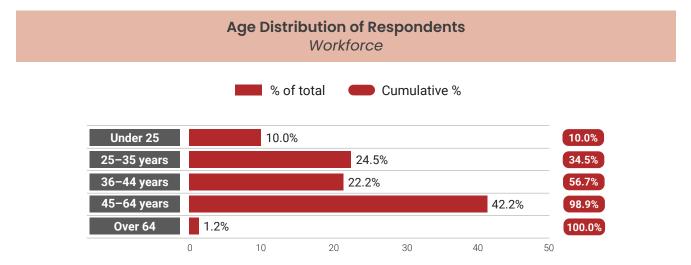

#### AGE

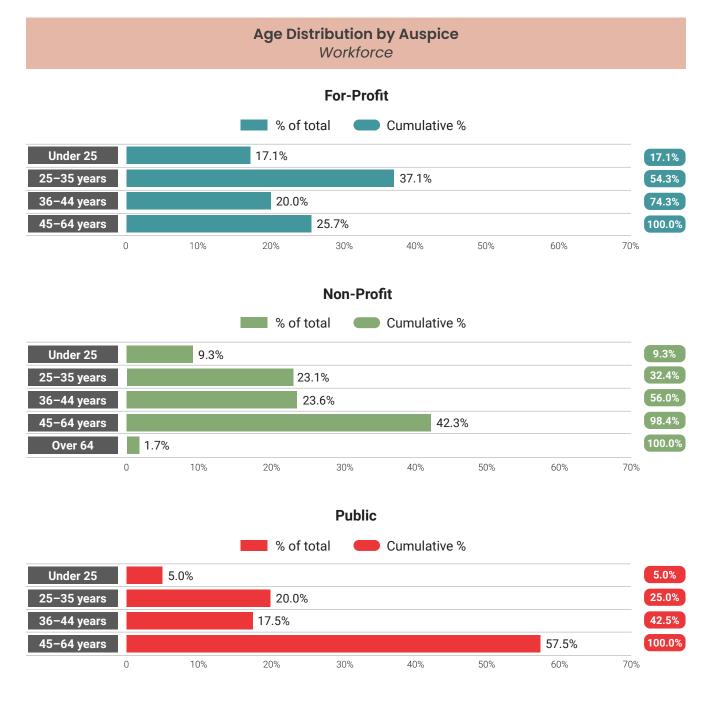

Approximately 57% of *workforce* respondents are under the age of 45. Director/supervisor respondents in the City of Windsor are older than the provincial sample. Across participating regions, 42.7% of director/supervisor respondents are under the age of 45 years compared to 35% in the City of Windsor.

Of the 32 directors/supervisors who responded to the survey, 81.3% report they are RECEs compared to 94.7% across all 43 participating regions. Of those who are RECEs, 89.3% have been registered with the College of Early Childhood Educators for less than five years.

Respondents working in for-profit organizations are more likely to be younger. Approximately 74% of *workforce* participants from for-profit programs are under the age of 45 years. By comparison, 56% from non-profit and 42.5% from public programs are under 45 years of age.

KNOWING OUR NUMBERS: THE CITY OF WINDSOR

5

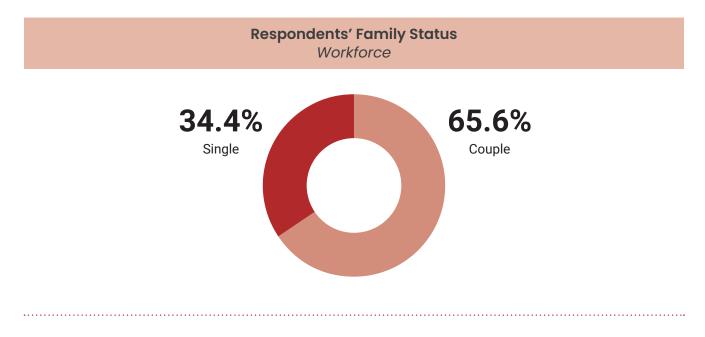

#### YEARS OF EXPERIENCE

Participants who work in for-profit programs have the fewest median years of experience. In contrast, public programs tend to have more experienced educators.

Years of Experience by Auspice Workforce						
Auspice	Mean	Minimum	25th percentile	Median	75th percentile	Maximum
For-profit	9.2	0.0	2.0	7.0	15.0	37.0
Non-profit	16.0	0.0	6.0	15.0	25.0	42.0
Public	18.3	0.0	10.0	18.0	26.0	43.0

#### **FAMILY STATUS**

Approximately 34% of the workforce survey respondents are single.

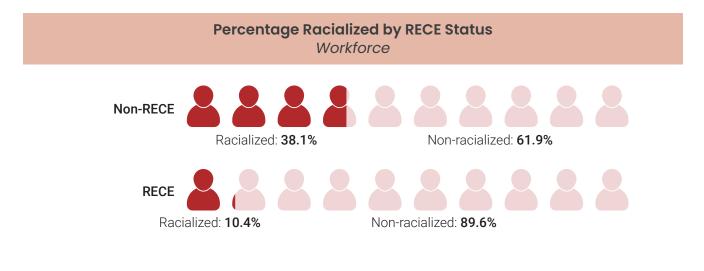

#### RACIALIZATION

About 18% of the workforce sample identify as racialized.

Non-RECEs are more likely than RECEs to identify as racialized. This is similar to the province-wide findings.

## Compensation

#### WAGES

Wages of RECEs are higher than for non-RECEs. Those working in for-profit programs have the lowest hourly wages, while those in public programs have the highest wages. Approximately 16% of respondents report having additional employment to supplement their primary wages.

Hourly Wages by Auspice and RECE Status Workforce				
RECE status				
Non-RECE	RECE			
\$19.69	\$21.84			
\$21.49	\$24.52			
\$29.50	\$28.75			
\$21.64	\$25.01			
	orkforce           RECE \$           Non-RECE           \$19.69           \$21.49           \$29.50			

\*Interpret with caution due to low numbers.

Reported director/supervisor median wages (\$28.50) in the City of Windsor are lower than for those across provincial participating regions. The median director/supervisor hourly wage in the overall provincial findings is \$30 per hour, with a minimum of \$18 per hour and a maximum of \$80 per hour.

#### The City of Windsor Director/Supervisor Wage Range by Position

Director         \$30.00         \$21.00         \$26.50         \$28.50         \$33.50         \$48.00	Position	Average	Minimum	25th percentile	Median	75th percentile	Maximum
	Director	\$30.00	\$21.00	\$26.50	\$28.50	\$33.50	\$48.00

#### **BENEFITS**

Almost three-quarters (73.7%) of *workforce* respondents report having access to paid sick days. Just under 60% report having extended health benefits. Less than half (48.6%) report having pensions or RRSP contributions through their employer. About half (50.2%) have access to paid professional development. Pay increases for obtaining a new credential or degree in early education (8.2%) and tuition assistance (7.4%) are rare.

Percentage of Respondents with Access to Non-Mandatory Benefits Workforce ԱԱԱ 67.5% 50.6% 58.9% 13.1% Paid sick days Paid bereavement leave Extended health benefits Paid personal or (e.g., dental, physiotherapy, etc.) mental health days 18.5% 50.2% 29.6% 48.6% Paid professional Paid programming time Pension benefits or Paid team meeting time development during the workday during the workday contributions to an RRSP 16.9% 9.1% 7.4% 8.2% Salary scale with regular Parental leave top-up Pay increase for obtaining Tuition assistance quaranteed increases a new credential or degree reflecting my qualifications, in early childhood education responsibilities, and seniority

### Workforce Stability, Stress, and Job Satisfaction

#### DISCRIMINATION

Approximately 37% of *workforce* respondents report having experienced workplace discrimination. The types of discrimination experienced vary, with bullying (63.9%) being the most common, followed by education/seniority (39.2%). Note that bullying may involve, or be rooted in, other forms of discrimination (e.g., racism or ageism).

Percentage of Respondents Reporting Experiences of Workplace Discrimination Workforce

Experiencing discrimination: 37.4% Not experiencing discrimination: 62.6%

#### **Types of Discrimination** Workforce

Bullying	63.9%
Education/seniority	39.2%
Ageism	16.5%
Mental health	14.4%
Racism	13.4%
Body prejudice	13.4%
Religious belief	7.2%
Immigration status	6.2%
Homophobia	5.2%
Sexism	4.1%
Ableism	4.1%

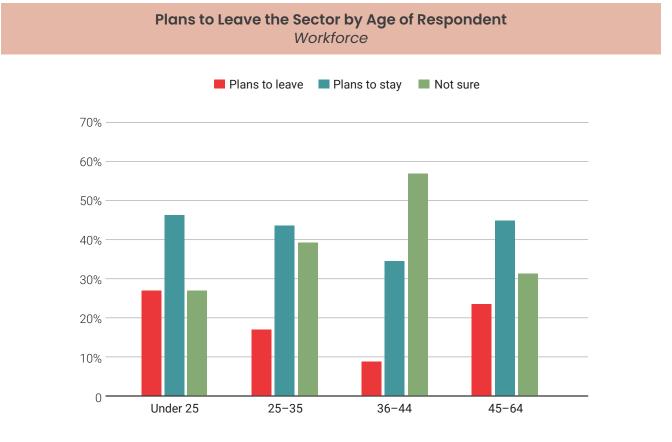

#### JOB SATISFACTION

Across all auspices, only 41.8% of respondents report plans to stay in the sector over the next five years. Those who work in for-profit programs are slightly more likely to report plans to stay. Those who work in non-profit programs are more likely to say they have plans to leave or are unsure of their plans. These findings have important implications for retention strategies.

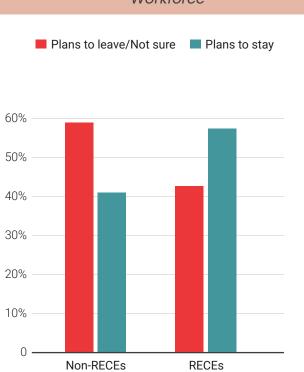

Those under the age of 25 and between the ages of 45 and 64 years are more likely to report plans to leave the sector. Those between the ages of 36 and 44 are more likely to be uncertain of their plans. These findings have implications for policy development and investment in retention strategies. Note that those 65+ are not included in these findings as plans for retirement would confound results.

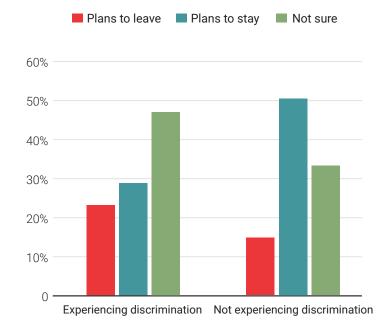

Overall, 58.8% of non-RECEs and 42.3% of RECEs have plans to leave the sector or report they are unsure. RECEs are more likely to report they have plans to stay in the sector.

Plans to Leave the Sector by RECE Status Workforce

Plans to leave the sector are associated with experiences of discrimination among RECEs. Those who experience discrimination are more likely to report plans to leave the sector or report they are unsure of their plans. These findings have implications for professional learning and human resource management. More detailed discussion can be found in the **Executive Report**.

#### Plans to Leave the Sector by Experiences of Workplace Discrimination Among RECEs Workforce

About 44% of director/supervisor respondents in the City of Windsor report wanting to stay in the sector compared with 32.5% across all participating regions. About 31% report they are uncertain of their plans.

#### WORKPLACE STRESS

Those working within public auspices report slightly lower levels of stress on a scale of 1 (low stress) to 5 (high stress). In addition, RECEs report slightly higher levels of stress than non-RECEs. RECE respondents working in for-profit programs and non-RECE respondents working in public programs report the highest levels of stress.

Average Level of Stress by Auspice Workforce				
(1=low stress; 5=high stress)				
RECE status				
Auspice	Non-RECE	RECE	Average across RECE status	
For-profit	3.2	3.6	3.4	
Non-profit	3.2	3.5	3.4	
Public	3.5	3.0	3.3	
Average across auspice	3.3	3.4	3.3	
Note: All averages are weighted.				

Participants in the City of Windsor generally report a low level of job satisfaction. On a scale of 1 (low job satisfaction) to 5 (high job satisfaction), participants' level of satisfaction is 2.6 out of 5. Job satisfaction is highest within public programs.

#### Average Level of Job Satisfaction by Auspice and RECE Status Workforce

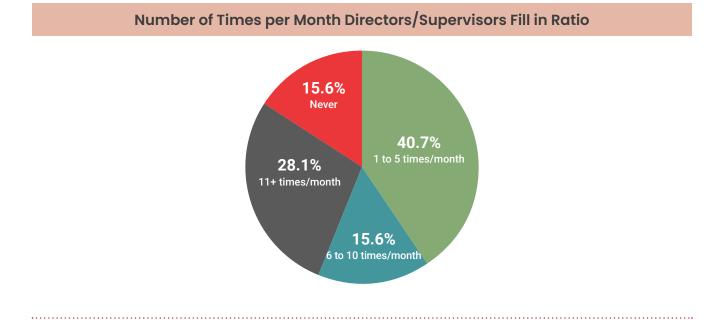

(1=low job satisfaction; 5=high job satisfaction)

#### **RECE status**

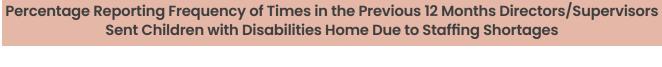

Auspice	Non-RECE	RECE	Average across RECE status
For-profit	2.4	2.3	2.4
Non-profit	2.5	2.5	2.5
Public	2.2	3.3	2.7
Average across auspice	2.5	2.6	2.6
Note: All averages are weighted.			

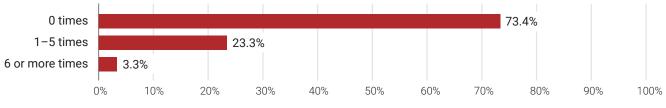

#### WORKPLACE STABILITY

Directors often stand in for absent staff by necessity, taking them away from their leadership and administrative duties. About 44% of management staff report having to fill in six or more times per month to maintain ratios, with just over 28% reporting this occurs more than 11 times per month.

Staff shortages also have deleterious effects on the inclusion of children with disabilities or varying needs. More than one-quarter (26.6%) of director/supervisor respondents report they have had to send a child(ren) with a disability home due to staffing shortages over the last 12 months. This is the same as the provincial sample average.

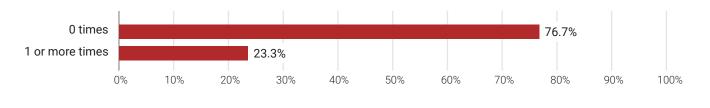

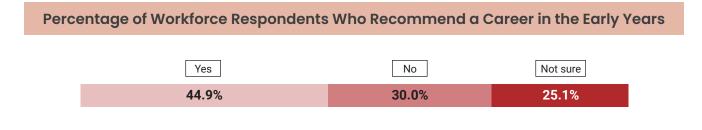

.....

Almost one-quarter (23.3%) of Windsor director/supervisor respondents report they have de-enlisted at least one child with a disability from their program in the previous 12 months due to staffing shortages. This is higher than the provincial sample average of 16.5%. Furthermore, 31.3% (compared to 27.3% in provincial findings) report they have refused admission to a child with a disability in the previous 12 months due to workforce shortages. About 3% of respondents have had to deny admission more than six times in the previous 12 months (data not shown).

Only 44.9% of *workforce* respondents in the City of Windsor report they would recommend a career in the early years to others who are interested. Another 25.1% are unsure.

In contrast, 82.7% of *workforce* respondents state they would recommend their program to a family member or friend looking for child care.

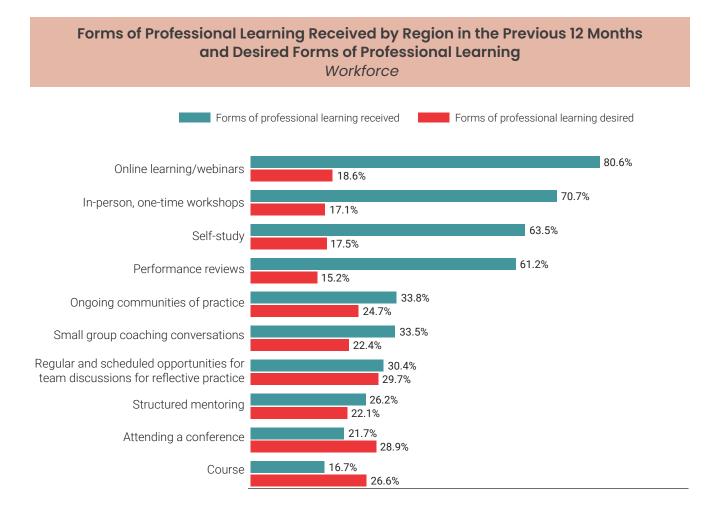

## Professional Development

#### FORMS OF PROFESSIONAL LEARNING

City of Windsor respondents report that the most common form of professional learning in the previous 12 months was online delivery (80.6%), followed by in-person, one-time workshops (70.7%), performance reviews (61.2%), and self-study (63.5%). Only 16.7% of respondents report having taken a course in the previous 12 months.

The most common forms of professional learning for Windsor respondents as reported above are also the least desired forms of professional learning (ranging from 15.2% to 18.6%). Instead, respondents report wanting to attend a conference (28.9%), opportunities for reflective practice (29.7%), and to take a course (26.6%), all of which are forms of collective learning.

#### CONTENT OF PROFESSIONAL LEARNING

Just over half of survey respondents report they received training to support children with disabilities (51.3%). About 40% report having received anti-bias/anti-racism education (41.1%) and cultural diversity training (40.7%) in the previous 12 months. In contrast, participants report the least amount of professional learning in the areas of incorporating Afrocentric ways of being (9.1%), incorporating land-based learning (15.6%), and supporting 2LSGBTQIA+ children and families (17.1%). Census data for the region help contextualize results.

The most wanted professional learning reported is centred around supporting vulnerable (41.4%) and newcomer (37.6%) families. Other types of learning wanted by respondents from Windsor include critical trauma-informed practice and incorporating land-based learning (both 30.4%), supporting 2LSGBTQIA+ children and families (34.2%), incorporating Afrocentric ways of being (33.5%), and supporting children with disabilities (35%).
